

Sno	Issues /Features	Priority	ETA	Status	Comments	Remarks
1	Top Category	Critical		Closed		
2	Fetaured Content	Critical		Closed		
3	Index Page - befor login content to be picked from a custom table with top 5 contents from all categories (Only top 12 will be randomly picked and showed in this page , rest will be used for later purpose)	Critical		Closed		
4	Inspect element is showing the S3 bucket list in the Account Settinngs , home page	High		Kept on Hold		
5	Inspect element is showing user profile path (This is due to Notification)	High		Kept on Hold		
6	The like function is causing duplicate entries when tried multiple times.	High		Closed		
7	Email notification confirmation from user for social logins (same like we hve in sign up)	High		Kept on Hold	what if facebook/insta user is using mobile number instead of email, where will the mail be sent.	For mobile no , add mobile no , we are just taking confirmation for communicating with them , communication mode is irrelevant, that we will see later
9	Text upload which will be shown as image with text on it (Text to image conversion) User can enter text and it will be converted to image and published.. Things to take care, it can also come as carousel that is in different images like different chapter for pages.	High		Kept on Hold		
10	Same post can have multiple images /videos (like insta) . Users can upload multiple images at first or later	High		Closed	Files table is the primary key, need to change entire database schema with all codes related to it, to make it possible	
11	Users can post paid content with approval from admin to go live .Paid post will go live only after approved by admin . Users can see only after paying for the same . Will share payment gateway integration details User can post a content as paid content. Admin has to approve before it gets published to website	High		Closed	https://dashboard.ranvirpay.com/#app/dashboard	
12	Posts with single image also has arrow for carousel .. Which should be onlky for posts with multiple images	High		Closed		
13	getting error while clicking on username on homepage	Critical		Closed		
14	search is not working	Critical		Closed		
15	My profile is not working in Add Work Page. Not clickable	Critical		Closed		
16	Strong password for sign up	High		Closed		
17	Username length min and max for sign up	High		Closed		
18	login with email/username Support	High		Closed		
19	If user is login using social media account, then change password should not be visible ro greyed out	Medium		Kept on Hold		
20	Footer : When clicking on the image, take to home page for logged in users for not logged in users take to index page (later we ll need to add proper image and link)	Critical		Closed	Still getting error while clicking on image. Ans.:Problem due to no clean code, once clean coding will be done it'll be fixed.	
21	Nil	Low		Closed		
22	Nil	Low		Closed		
23	Confirm password not working at signup page	Critical		Closed
